

BADABHAI

बडाभाई

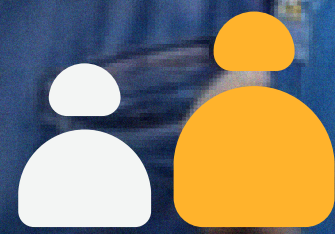

Badabhai is a job portal making employment easier for India's blue-collar workforce.

It aims to bring job opportunities together in one place, making them easier to discover, understand and access. The name comes from the Hindi "Bada Bhai," meaning an older brother. It reflects the role the platform wants to play in a **worker's journey**: someone who guides you, helps you understand your options and looks out for you when you are looking for work.

The portal is not designed to feel like a distant employment platform or a complicated recruitment website. It is designed to feel familiar, straightforward and helpful, **like having a big brother who can point you in the right direction.**

With support for multiple Indian languages, Badabhai recognises that India does not have one language, one profession or one kind of worker. The experience adapts to **the people using it**, making employment more accessible across different regions and communities.

BADABHAI
बड़ाभाई

The monogram is a simple visual **representation of a big brother** and the guidance that comes with having someone more experienced by your side. Two human silhouettes come together, with one slightly larger than the other, creating a subtle sense of age, experience and support.

The simplicity of the forms makes the symbol **familiar and approachable**, while their relationship gives the monogram its meaning. One knows the way, and the other knows they don't have to find it alone.
